

Welcome,

Tasty Az is a social enterprise specialising in catering, events and hospitality services, currently located in Lilydale. Established in 2014 following the closure of the local TAFE campus, Swinburne, where the founder Julie-Ann Morman (Jules) taught courses specialising in hospitality as well as courses in supported learning for young adults living with a disability or learning difficulties.

Tasty Az was set up to provide quality, hands on, integrity driven training, work experience, work placement, industry related education opportunities and transparent pathways to supported and open employment.

Tasty Az is a non-funded, non-government, grass roots, self-funded, self-sufficient social enterprise which currently supports, educates, trains and employs 12 young adults who live with a disability. During the past 3 1/2 years we have assisted and supported a further 16 young adults in their preparation to obtain on-going training or employment in various areas of hospitality.

Profits from catering and event sales are our means of being able to financially enable Tasty Az to support our core purpose, that being to assist and nurture young people with special needs to develop their individual abilities catering for our community.

We thank you for the opportunity to share our menu, listing our products and services with you. We invite you to view our Facebook page Tasty Az and we would really love your LIKE. We also have a website www.tastyaz.com.au where you can see our delicious catering menu items and photos of our incredible young team members in action.

We do not have the finances to advertise as our money is needed for much more important things however we would kindly request you share details about our social enterprise with as many work colleagues, friends and family as possible, please. Because every new catering order we get, enables us to support and provide meaningful and valued employment opportunities to our Tasty Az team members and opportunities to engage more members in the future.

Jules
